PROFESSIONAL SUMMARY

Detail-oriented junior data analyst with hands-on training in data analysis, data interpretation, and data storytelling using Excel, Power BI, SQL, and Python. Experienced in data profiling, data pipelines, administrative support, and dashboard reporting through 5 years in an educational institution. Skilled at transforming raw data into actionable insights and seeking remote opportunities in data analytics.

SKILLS

Data Entry • Microsoft Excel • Power BI • SQL • Python • Data Visualization • Dashboard Design • Data Interpretation • Data Profiling • Data Storytelling • Analytical Thinking

EXPERIENCE

Data Analysis Intern | *Decode Labs* | 2026

- Completed intensive data analysis training, executing end-to-end data pipelines from ingestion to visualization, improving dataset readiness for reporting.
- Cleaned, modeled, and performed data interpretation on complex datasets using Power BI and advanced Excel functions to extract actionable insights.
- Conducted data profiling to assess data quality and structure across multiple training datasets.
- Used data storytelling techniques to present findings clearly to peers and instructors, supporting business insight and dashboard projects.

Administrative Assistant | *Ota Total Academy, Ogun State* | 2022 - Present

- Managed financial databases and administrative records within the bursary department, maintaining 100% data integrity.
- Executed high-volume, accurate data entry and document classification tasks, reducing filing errors through consistent process audits.
- Audited payment records, filing systems, and cross-departmental office scheduling.
- Maintained accuracy and confidentiality of records across daily office operations and scheduling.

Administrative Assistant | *Ota Total Academy, Ogun State* | 2018 - 2019

- Managed 700+ student record databases and supported bursary data entry operations.
- Organized, indexed, and categorized administrative documents, improving retrieval efficiency.
- Assisted with day-to-day office workflow and communication tasks.

PROJECTS

Sales Analysis Dashboard | *Excel*

- Developed a sales dashboard in Excel utilizing pivot tables and slicers for real-time dynamic filtering.
- Visualized ₦2.3B in revenue and analyzed product profitability to identify top-performing inventory.
- Tracked sales rep performance and regional COGS across cities to optimize sales strategies.

Sales Performance Dashboard | *Power BI*

- Designed an interactive dashboard visualizing \$3M in revenue, \$2M in costs, and \$932K in profit.
- Developed comparative analysis charts to isolate brand performance and customer income levels.
- Monitored monthly customer trends to identify seasonal shifts across a base of 250 distinct customers.

Logistics Data Analytics Capstone Project | *Power BI*

- Analyzed a 14-table logistics dataset tracking fleet, fuel, and driver metrics using Power BI.

- Used Power Query for ETL and authored DAX for Revenue per Mile and Profit Margin KPIs.
- Built a 5-page dashboard covering Executive Overview, Fleet, Driver Safety, Route Profitability, and Fuel.
- Generated insights identifying high-margin transport lanes and operational bottlenecks.

Data Cleaning Report | *Excel | Transaction Dataset*

- Cleaned and standardized 1,200 rows of raw transaction data across 14 columns, performing data profiling to assess data quality and structure.
- Resolved null coupon codes, verified zero duplicate Order IDs, and standardized text casing, currency, and ISO 8601 date formats.
- Achieved a 0% error rate on unique identifiers, dates, and number formats through systematic data interpretation and validation.

Sales Data Analysis & Trend Report | *Excel | Statistical Analysis*

- Conducted statistical analysis on 1,200 orders totaling \$1.26M in revenue using data storytelling techniques to surface key insights.
- Identified declining year-over-year revenue trend (2023-2025) and flagged top revenue drivers including Chairs and Printers.
- Detected a logistics risk where combined cancelled and returned orders outnumbered successful deliveries, prompting recommended process review.

EDUCATION

B.Sc. Political Science | *University of Lagos | 2019 - 2025*

TRAINING & CERTIFICATION

- TS Academy - Data Analysis Training (2026)
- Jobberman Soft Skills Training - Certificate of Achievement (2025)
